With over two decades experience in financial services, Clare has a proven track record in navigating complex financial landscapes.

Specialising in restructure, insolvency, and turnaround strategies, Clare has transformed challenges into growth opportunities, becoming a trusted advisor for corporations seeking resilience and revitalisation.

Clare is passionate about solving complex financial problems and bringing her expertise to help stakeholders navigate challenging situations. She has worked with organisations of all sizes, from large ASX-listed corporations through to small and medium-sized enterprises across a broad range of industries, as well as government entities, and high-net-worth individuals. Clare has most recently worked with mining, natural resources, and energy-based clients.

Engagement Experience —

- Court appointed receivership of a large pension fund, role included the management of multiple stakeholders, across multiple jurisdictions and investigation into alleged misappropriation of investment funds.
- Receivership of a WA-based coal mine which supports 15% of the state's energy supply. The appointment included the maintenance of operations, together with critical infrastructure improvements and negotiation of industrial instruments affecting key workforce personnel. Together with regular reporting cadence with both secured creditors and key stakeholders.
- Voluntary Administration of a WA-based civil engineering company, a subsidiary of a large national commercial construction group, which included the going concern sale of its core business and retention of 150+ workforce.
- Managed a range of large and complex formal insolvency appointments involving significant forensic investigations, reporting to regulators such as ASIC and ATO.
- Managing a range of liquidator recovery actions for the benefit of creditors, with experience in public examinations, voidable transactions, insolvent trading, and transfer of assets.
- Independent business reviews for lenders, assessing the financial position of underperforming borrowers and formulating recommendations for restructure or reducing debt.
