

Elin Gunstveit

Director in Brisbane

+61 7 3333 9815 / +61 403 859 752

egunstveit@mcgrathnicol.com

Elin has more than 18 years' experience advising government departments, law firms, financial institutions and other large organisations on complex investigations, regulatory inquiries, commissions and litigation matters.

She specialises in eDiscovery and electronic evidence management, including the identification, preservation, collection, processing and analysis of large and complex data sets.

Elin has led multidisciplinary teams and supported clients through end-to-end electronic discovery processes, ensuring defensible, efficient and proportionate outcomes.

Her experience includes delivering eDiscovery and Digital Forensics services for a number of high-profile matters.

Engagement Experience —

- Managed collection of source data and coordinated a team to identify personally identifiable information (PII) following a data breach involving a large national law firm.
- Provided document management, stakeholder coordination and evidentiary support for the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry.
- Supported the Royal Commission into the Robodebt Scheme through the secure management and review of sensitive information, stakeholder liaison and hearing preparation.
- Assisted the Commission of Inquiry into Forensic DNA Testing Practices with records management, expert evidence coordination and preparation of briefing materials.
- Assisted an investigation into the suspected theft of intellectual property for a financial services client, including forensic analysis of software source code.
- Provided eDiscovery support for an international class action involving the collection and analysis of electronic data across multiple jurisdictions.
- Provided forensic technology assistance to an Australian Government agency in relation to a court-authorised investigation into corporate misappropriation.
- Assisted ASIC and the Australian Federal Police with the execution of search warrants and the forensic collection of electronic evidence.
- Supported a national energy company in an investigation into allegations of employee fraud.

Qualifications & Memberships —
