Summer is a restructuring and insolvency specialist with more than 14 years' professional experience working with companies and their stakeholders to overcome challenges and maximise financial outcomes.

Summer's experience includes being involved in a number of formal insolvency engagements and receiverships, trading on and restructuring businesses, and advisory roles for small to medium sized businesses and ASX-listed entities.

Recent engagements include the receivership of a large Western Sydney property developer, and voluntary administration and liquidation of RCR Tomlinson Limited, a national ASX-listed engineering and infrastructure business. Summer has worked across a broad range of industries including property, engineering, infrastructure, mining and mining services, and forestry.

### Engagement Experience —

- Receivership of a large Western Sydney property developer with eight large property sites. This included the sale of vacant residential development sites, completion of residential construction sites and subsequent sale of the units, and litigation with other lenders of the group.
- Voluntary administration and liquidation of RCR Tomlinson Limited, an ASX-listed diversified engineering and infrastructure company with a national footprint.
- Receivership of Quintis Limited, an ASX-listed vertically integrated developer and processor of one of the world's largest Sandalwood plantations which involved the recapitalisation of the group's debt via a deed of company arrangement, scheme of arrangement and creditors' trust.
- Advising a director of a steel manufacturing business through the voluntary administration and deed of company arrangement process, including negotiations with secured creditors.
- Buy-side assistance for the acquisition of mines owned by entities in external administration.
- Trade on receivership of a Western Australian-based transport business.
- Key contributor to voluntary administration and liquidation of businesses in various industries including agriculture, property development and engineering services.
- Corporate streamlining and managed wind-downs of various listed companies including subsidiaries of Unibail-Rodamco-Westfield and IBM.
